CLATUU α

Expandable Range of Fast & Comprehensive
Non-Invasive Fat Reduction Solutions

Science Behind CLATUU Alpha

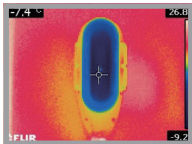

Each cooling applicator has been engineered to precisely target only the subcutaneous fat layer, without damaging surrounding tissues or nerves.

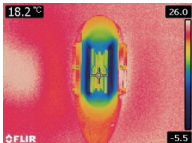

Superior Results

360° Surround Cooling Technology is able to more effectively remove fat cells by precisely delivering cooling energy around the entire applicator, thus increasing efficiency by up to 18.1%.

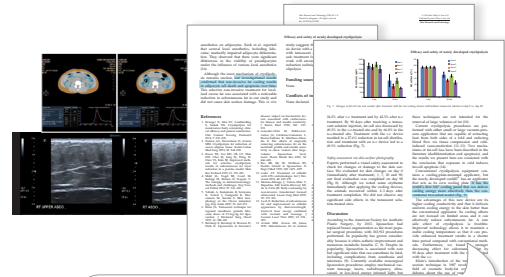

360° Surround Cooling

Previous Methods

18%
More Effective Result

“ Our investigational results confirmed that non-invasive fat cooling results in adipocyte cell death and apoptosis over time. ”

“ It has the world’s first 360° cooling panel that can deliver cooling energy more effectively than the conventional two-sided model. ”
